

ISO 9001 INTRODUCTION

COURSE CODE: ISO-1

LEVEL: Intermediate to Advanced

LANGUAGE: English

OVERVIEW

ISO 9001 is a set of international standards for quality management systems (QMS) developed by the International Organization for Standardization (ISO). The ISO 9001 standard provides a framework for organizations to establish, implement, maintain, and continually improve their quality management systems.

The primary goal of ISO 9001 is to enhance customer satisfaction by ensuring that an organization consistently provides products and services that meet customer and regulatory requirements. The standard is applicable to a wide range of industries and types of organizations, regardless of their size or the nature of their products or services.

LEARNING OBJECTIVES

Upon successful completion of this training course, the participants will be able to:

- Understand the main concepts and definitions related to quality
- Understand the structure and elements of a QMS based on the requirements of ISO 9001

3. Or contact our office at: 03.6279.9276 / 013.398.1038

FACILITATOR

NG SOON KIANG (CARL) is a Bachelor Degree holder of Chemistry with Minor in Management. He started his career as Production Shift Supervisor in a US based medical glove manufacturer before moving to R&D line in an Australian glove manufacturer as an R&D Chemist over a total of 8 years. He then served as Senior Chemist in Quality Control Laboratory in Metal Smelting for 8 years and later moved to Wood-based Manufacturing Sdn. Bhd. as an R&D Manager.

The 16 years experience in science and technology has strengthened his grasp in both analytical thinking and quality practices. His conscience for quality products was nurtured through US FDA audits on medical products. He has codeveloped a patented (patented in USA) hydrogel coating for surgical gloves. He has also developed pre-curing formulations for latex which was later used in the production of examination gloves with a capacity of 500,000 pieces per day. The time in MIECO was spent developing formulations for particleboard and paper laminates.

He held the position of head of department of R&D, EHS and Regulatory Affairs in Wood-based Manufacturing Sdn Bhd. During 2007 and 2008, he was the head of QA/QC department responsible for incoming, in-process and outgoing quality while attending to quality complaints. Since 2007 he has become the Management Representative for QMS, EMS, OHSAS, JIS and PEFC-CoC. He clocked over 450 hours of external training mostly under CIDB. He has just been certified by HRDF as a certified trainer. The list of subjects specialized include:

- ISO 9001:2015 Awareness | ISO 9001:2015 Internal Auditor
- Risk Management | Time Management
- 7 QC Tools
- Chemical Spill & Splash Handling
